

WEBCO ACID SANITIZER

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Sanitizer for Breweries

A. Clean Brewery tools and equipment

1. Immediately after use, remove gross food particles and soil by a pre-flush, or pre-scrape and when necessary, pre-soak treatment.
2. Thoroughly wash the surface or objects with a good detergent or compatible cleaner followed by a potable water rinse prior to application of the sanitizing solution.

B. Sanitize with 1 oz. of Webco Acid Sanitizer per 6 gallons.

This will provide 775 ppm of phosphoric acid.

1. Thoroughly wet surface or material for at least one minute.
2. Adequately drain and let air dry before reuse.
3. Mechanical operations: use solution may not be reused for sanitization but may be reused for other purposes such as cleaning.
4. Manual operations: prepare fresh solution daily or more often if the solution becomes diluted or soiled.

CONTACT TIME:

The laws of some states require that utensils and equipment remain in contact with sanitizing solution for 2 minutes. Check with your Health Department.
